CLASS 7 AND 8 HALF TERM NEWSLETTER

This project has a Science focus and teaches children about Space and the Solar System.

Children will also learn about the eight planets and the moon. In the Innovate Stage children will build and launch their own rockets!

We will also be visiting the planetarium at Techniquet where we will learn about the stars, galaxies and our place in the Universe. Pupils will undertake various art and design projects based around space, and in ICT will learn about coding and programming.

In Numeracy we will continue following Big Maths and Abacus. In Literacy we will be writing pieces of science fiction as well as scientific reports.

Class Routines to be aware of:

Outdoor and indoor Games kit needed every **Friday** for both classes.

Reading books and spelling folders need to be in everyday.

Spelling and Maths tests will take place every Friday, children will also be given new spelling words and spelling homework every Friday.

Upbeat Year 5 every Wednesday.

Homework

Homework (other than spelling, reading and test practise) will be given when required, not necessarily every week.

After School Clubs For Y5&6

Monday- Sports Club 3.30-4.30 Years 5 & 6

Wednesday—Netball 3.30-4.30 Years 5 & 6

Thursday—Bloggers lunch time
